

HARMEET SINGH

Computer Science Student | Aspiring Web Developer

+91 9315510952 | harmeetsingh581012@gmail.com | github.com/harmeet-28 | linkedin.com/in/harmeet-singh

SUMMARY

Pre-final year Computer Science student with hands-on experience in web development, Data Structures and Algorithms, and database management. Proficient in C, Python, and SQL with a strong record of academic performance (CGPA 8.95) and real-world internship experience building and optimizing web applications. Seeking to contribute to impactful software development projects while continuing to build technical depth.

SKILLS

Programming Languages: C, Python, SQL

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Core Concepts: Data Structures and Algorithms (DSA), Database Management Systems (DBMS)

Tools & Platforms: Git, VS Code

EXPERIENCE

Web Developer Intern — Dhruvstar

June 3, 2025 – July 9, 2025

- Developed and optimized web applications as part of a collaborative development team, contributing to live, real-world projects.
- Gained hands-on experience with modern web development technologies and practices, including front-end implementation and application debugging.
- Worked within a structured development workflow, supporting feature delivery and code quality improvements.

Assistant Secretary – Events

November 2024 – Present

Training and Placement Cell, NIELIT Ajmer

- Coordinate and help organize placement and training-related events for the college's Training and Placement Cell.
- Collaborate with student and faculty teams to plan event logistics and ensure smooth execution.

PROJECTS

Enterprise CRM Dashboard | *React.js, Node.js, MongoDB*

- Developed a full-featured CRM dashboard for managing leads, customer interactions, and sales pipelines from a single interface.
- Implemented responsive, component-based user interfaces with React.js to support efficient, mobile-friendly usage across devices.
- Built and integrated RESTful backend services with Node.js to handle data flow between the client and the database.
- Designed MongoDB schemas to store lead, contact, and interaction data in a structured, query-efficient format.
- Enhanced data organization and workflow management through structured backend data handling and validation logic.

File Uploader API | *Node.js, Express.js, MongoDB*

- Built a RESTful API for secure file upload, storage, and management using Node.js and Express.js.
- Implemented MongoDB database integration to track file metadata, upload history, and storage references.
- Developed middleware for file handling, including validation of file type and size before processing.
- Applied backend development best practices, including modular routing, structured error handling, and clear API responses.

Notes App | *React.js, JavaScript, CSS*

- Developed a responsive notes management application with a clean, component-based React.js interface.
- Implemented add, edit, and delete note functionality with real-time UI updates.
- Used browser local storage to persist notes data across sessions without requiring a backend.

Student Management System | Python, MySQL

- Built a full CRUD (Create, Read, Update, Delete) Student Management System using Python and MySQL.
- Designed and managed a relational database schema to store and retrieve student records efficiently.
- Implemented core application logic in Python to handle data validation and database operations.
- Added features for searching and filtering student records to make data retrieval faster and more intuitive.

EDUCATION

Bachelor of Technology, Computer Science 2024 – 2028 (Expected)
National Institute of Electronics and Information Technology (NIELIT), Ajmer | CGPA: 8.95

Senior Secondary (Class XII) 2022 – 2023
The Lord Krishna School, Harsauli | Grade: 89.20%

Secondary (Class X) 2020 – 2021
The Lord Krishna School, Harsauli | Grade: 92%

LANGUAGES

English, Hindi
